Boywe St., Latha, Yangon

SUMMARY

Enthusiastic and fast-learning Frontend Developer with experience building responsive and user-friendly web interfaces using React, Next.js, TypeScript, MUI, and Tailwind CSS. Comfortable working with APIs, state management, and modern frontend tools. Motivated to keep improving and excited to contribute to real-world projects and team environments.

SKILLS

- **Languages & Markup**

    HTML5 , CSS3, JavaScript (ES6+)

- **Frameworks & Libraries**

    React.js , Next.js, Bootstrap5, Tailwind CSS, Material UI, React Hook Form

- **State Management & Routing**

    React Query, SWR, React Router

- **Backend**

    Laravel , MySQL

- **Tools**

    Git, GitHub, Hoppscotch, Bruno

PROFESSIONAL EXPERIENCE

Ultimate Solution
OJT Frontend Developer   **August 2025 - October 2025**

- Converted Figma design layouts into responsive and reusable Next.js + MUI components, ensuring pixel-perfect UI and consistent design across all screen sizes.

- Developed Laravel API endpoints and integrated them into the Next.js frontend using SWR for efficient data fetching, caching, and real-time UI updates.

- Collaborated with team members using GitHub and assisted in debugging, fixing UI issues, and improving component structure.

PROJECTS

Converse E-Commerce Website (Frontend only)

(React, TypeScript, Tailwind CSS, React Router)

- Designed and built a responsive e-commerce frontend inspired by Converse's website.

- Implemented dynamic routing, reusable components, and clean navigation flow and managed state using React hooks .

Job Application Tracker —Full-Stack Project

(Next.js, React, TypeScript, MUI, Prisma, MySQL, SWR, NextAuth)

- Built a full-stack job tracking system allowing users to log, update, and organize applications with resume uploads.
- Developed reusable form components using React Hook Form with Zod validation for reliable user input.
- Implemented protected API routes, user sessions, and Prisma queries to manage backend data securely.
- Created a dashboard with progress indicator charts to visualize application status distribution.
- Delivered a responsive MUI table with pagination for clear and organized data presentation.

Portfolio Website

(Next.js, Tailwind CSS, GSAP, Swiper)

- Developed a responsive and visually engaging portfolio website using Next.js and Tailwind CSS.
- Implemented smooth animations and scroll interactions using GSAP to enhance user experience.
- Built interactive carousels with Swiper to showcase projects and skills dynamically.
- Optimized components for performance, responsiveness, and cross-browser compatibility.
